## MRS. POST'S SECOND TRIAL.

The Second Trial of Helen Wilmans Post, of Seabreeze, is Set to Begin in Jacksonville, January 22.

The second trial of Helen Wilmans Post, of Seabreeze, is set to begin in the United States District Court at Jacksonville, January 22. The witnesses have been subpoenaed and some will be here from distant California and from other far away parts of the United States. The case will be heard before Judge Aleck Boardman.

The attorneys for the Government have not yet been announced, though the special attorney will again be there, and Assistant United States Attorney Marks will also appear in the case. The defendant will again be represented by Col. Otis T. Green, of Ocala, and by Messrs. Bisbee & Bedell, of Jacksonville.

The famous case will be readily called to mind by our readers. At the time of the first trial the case attracted national attention, and entire pages were devoted to it in the leading newspapers of the country. This second trial will prove none the less interesting.

The story of Mrs. Post's claim to be able, through her highly developed will power alone, to cure all diseases, restore sight and hearing, cause amputated arms and legs to grow again, to restore youth and prevent old age, is too well known to need repetition.

She was indicted for fraudulent use of the mails, tried and convicted, and sentenced to imprisonment for a year and a day in the Federal penitentiary at Nashville. An appeal was taken to the higher courts and the lower courts reversed, and a new trial ordered. This

## An Accident to the Press

Prohibited the issuance of the Daily News yesterday. The difficulty has been remedied, and we trust it will not be necessary to miss another issue during the season. No, the force was not on a Christmas "jag."

**A NEW DRY GOODS STORE.** W. J. Bethel and Company Have Leased McCoy Bros.' Stand on Beach Street.

Daytona will have a new dry goods and notion store to commence business about January 15th.

The name of the new firm will be W. J. Bethel & Company, and a lease of the five years has been secured on the building occupied by McCoy Brothers.

Work will immediately commence on the interior of the store, and two large plate glass windows will soon be placed in position.

Mr. Bethel, the head of the firm, is a gentleman who has had considerable experience in his chosen line. As a business man of fair dealings, he holds an enviable place in this community. For several years he has been employed in the store of J. A. Hendricks. His many friends wish him success in his undertaking.

**Coburn Invests in Property.** James A. Coburn, owner and manager of the Barlow Minstrels, which showed in Daytona on last Thursday, spent Sunday in Daytona. Mr. Coburn is greatly impressed with the beauties of this section, and the climate in particular. While here last week he met W. E. Thomas, of the real estate firm of Smith & Thomas, and that enterprising gentleman was instrumental in booming their property to the extent that Mr. Coburn purchased the land property, on Valley Street, at Seabreeze. It is his intention, next summer, to commence the erection of a handsome home, and to have it in readiness for next season. His family will then come here to spend their winters.

Mr. and Mrs. G. Edmonston, of Washington, D. C., are stopping at The Oaks.

**Political Aspirants.** Messrs. J. A. Hendricks and S. W. Carroll, a Daily News representative learns, will be candidates for the position of councilmen at the coming city election, to be held in February. The same informant states that Street Commissioner William Rix, will oppose Mayor Smith in the event that none of other gentlemen announced themselves. Henry Schmidt will also be a candidate for re-election to the city council.

**The Great Feast Day Celebrated Quietly in Daytona.**—Races Indefinitely Postponed.

Christmas in Daytona was a pretty day, the real typical Christmas weather prevailing.

The day was celebrated at the homes and hotels of the city in the time honored fashion. In almost every household where there were little ones, a Christmas tree was the chief attraction. Bright and early did the children awaken, and to their pleasure, they found that Santa Claus has paid them the long expected visit. Horns and trumpets, in more closely settled neighborhoods, at times during the day sounded as if a regular parade or a serenade was in progress.

The churches, in the morning attracted many people, and the music rendered at the various edifices, was of the best. For several weeks past, the choirs have been making preparations for the great feast day, and every member of the respective churches was proud of the special music rendered.

In the afternoon, many of the townspeople and visitors expected to see the motorboat races, but owing to the heavy wind which was blowing, the event was declared off, indefinitely.

In the evening many who were inclined to dance wended their way to the pavilion of the Marlo Amusement Company. An excellent program of dance music had been prepared, and there was a large number who indulged in the exhilarating pleasure. The music was good, and every one fortunate enough to be present pronounced the occasion a success.

But very few stores were open Monday, and those who did feel inclined to dispose of their wares during a portion of the day say that there was practically no trade at all.

The usual holiday hours were observed at the postoffice, and the force of Uncle Sam's establishment say this was the largest Christmas business ever known.

A Christmas tree towering fully nine feet was the main attraction at Schmidt's Villa, on Monday. In addition, portions of the house were very prettily decorated for the occasion.

**S. F. EDGE WILL ENTER RACE.** Preparations For Great Speed Contest.—A Record-Breaking Tournament Is Looked For.

Reeves' Sporting News Bureau sends out the following news notes regarding the coming automobile races on the famous Ormond-Daytona beach:

"Word has been received, in New York that S. F. Edge, the English automobilist, has decided to come over for the Ormond-Daytona meet, and his entry has been made for twelve races during the tournament, which will begin on January 22. Clifford Earp, his racing partner, who will also drive a six-cylinder Napier, is now in this country and says that Hemery, the winner of the Vanderbilt cup race, and Jenatzy, the Mercedes driver, will both come over for the carnival of speed on the wave-washed Florida coast.

"Everything points to a record-breaking tournament, not alone in the list of entries of cars and drivers, but in attendance as well, as bookings are being made from all over the country. The automobile clubs of the big cities are planning excursions to the sunny South, and many of those who go will also visit Cuba, where a one-hundred-mile road race will be held two weeks after the Ormond-Daytona affair. R. E. Olds is going with a party of twelve and after the tournament will make a tour of Jamaica and Cuba. So great has been the demand for accommodations during the three days prior to the tournament that the Southern railroad is arranging for extra trains in addition to the regular service. Many automobilists will have special cars carrying their friends.

"Reports from Ormond show that almost all the rooms at the Ormond Hotel and other places have been reserved, but the Southerners declare tents will be provided and accommodations secured in cottages, so that all who go South will be provided with accommodations. J. D. Price is now at Ormond perfecting the preliminaries of what is to be the greatest automobile tournament in history."

The St. Augustine Meteor, under the editorship of Lewis W. Zim, made its appearance on Saturday, as a weekly. The paper is a seven column folio, and reflects great credit upon the proprietor.

## THE INSPECTORS WERE ACQUITTED

Jury in the Orange City Election Case was Out But Ten Minutes.—Verdict of Not Guilty Rendered.

The case of the State vs. W. C. Canons, Dennis Freeman and Mills Moore, the inspectors of the Democratic primary of May, 1904, was tried before the Criminal Court of Record at DeLand last week, and a verdict of acquittal returned by the jury Friday, after being out but ten minutes.

Judge Samuel T. Shaylor, Judge of the Criminal Court of Record of Duval County, presided, due to the disqualification of Judge Isaac A. Stewart.

Solicitor Brumsey was assisted in the prosecution by Frank W. Pope, of Jacksonville. The defense was represented by Landis & Fish, of DeLand, and W. L. Palmer, of Orlando.

The jury consisted of: John Padgett, Thomas Bennett, R. D. Raulerson, J. H. Gentry, W. D. Haynes and J. B. Taylor.

The defense put in no evidence at all, for the State was unable to prove that more votes were cast for Alexander for Congress than the returns showed.

Failure to prosecute this case is one of the alleged reasons of Governor Broward for removing James W. Perkins from the office of County Solicitor. Now that a verdict of acquittal was returned the Governor may have some explaining to do to the Senate when the next Legislature convenes.

**A Welcome Visitor.**

The first big show of the season will visit this place on Friday, December 29. Surely this item of news will please the young folks, the children, and the older ones also. Sun Bros.' World's Progressive Railroad Show is one that has a standing record of presenting a good performance in one big ring, in the good old style. Sun Brothers run their show strictly on business and moral principles. Nothing is permitted to appear that will mar the pleasure of the skeptically inclined. Neither are the usual army of fakirs (often seen following in the wake of shows) allowed to follow this organization. The long-standing reputation of the Sun Brothers throughout America and the Dominion of Canada shall not be jeopardized by allowing any such catch-penny affair to be connected with their show. Fifty great celebrated artists will appear at every performance. Fully two hours and a half of enjoyment is afforded. Let all attend. Afternoons at 2 o'clock. Evenings at 8 o'clock.

**Postoffice Receipts.**

The postoffices of the State with over \$10,000 income are as follows: Jacksonville, \$157,989; Tampa, \$65,701; Pensacola, \$42,635; St. Augustine, \$27,450; Miami, \$16,737; Tallahassee, \$11,514; Ocala, \$14,155; Gainesville, \$13,069; Key West, \$13,214; Orlando, \$12,809; Palatka, \$11,011; Daytona, \$10,627; DeLand, \$10,006.

Everett M. Canova, of the Daily News, returned last night from a visit of two days to St. Augustine.

CARDS AND KISSES

By John Lyle

UPID and my Campaspe play'd  
At cards for kisses—Cupid paid:  
He stakes his quiver, bow and arrows,  
His mother's doves and team of sparrows;  
Loses them, too; then down he throws  
The coral of his lips, the rose  
Growing on 's cheek (but none knows how).  
With these, the crystal of his brow,  
And then the dimple of his chin:  
All these did my Campaspe win.  
At last he set her both his eyes—  
She won, and Cupid blind did rise.  
O Love, has she done this for thee?  
What shall, alas, become of me?

CLOCKS AND KISSES

By Heinrich Heine

TELL me who first invented the clocks,  
Classing the hours and the minutes in flocks;  
That was some shivering, sorrowful man!  
Deep into midnight his reveries ran,  
While he counted the nibbling of mice round the hall,  
And the notes of the death-watch which ticked in the wall.

Tell me who first invented a kiss?  
O, that was some smiling youth, mouth full of bliss!  
It kissed without thinking, and still kissed away—  
'Twas all in the beautiful, fresh month of May;  
Up from the earth the young blossoms sprang;  
The sunbeams were shining, the merry birds sang.

**Christmas At The Hotels.**  
No one can get away by the num-  
bers of the various hotels in Daytona  
and surrounding hotels, for the celebra-  
tion of Christmas. Many of the very  
best new tables, and Christmas  
decorations which were used, was  
seen just before the public. In many  
of the hotels, Christmas trees were  
erected, and in the evening, brilliantly  
lighted with many candles. Guests  
of the hotels enjoyed the day almost  
as much as they had been in their own  
homes, and many expressions of pleas-

dinner which was served, was equal to  
any yet set before the public. In many

arranged, and in the evening brilliantly  
lighted with many small candles. Guests

## DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its farthest extreme and midway between its source at Hulow Bay and its outlet at Mosquito Inlet. It is in latitude 28, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all about the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palm-trees, glossy-leaved magnolias, fragrant lilies and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the angelica climb and cling about the branches forming shady tower and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. The river is the delight of the motorist as the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all too wide, except Beach Street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breeze from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadam and shelled roads and streets, rendering it the

### Wheelman's Paradise

added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

### The Beautiful Cottages

that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those seeking homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

### Water Supply

which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesium and iron, and holds sulphur in the shape of gas, which soon passes away.

### The Population of Daytona

proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

### Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

### Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no common sight to see well-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of

the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at oblique, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

### The Peninsula

lying between river and ocean is one-half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

### A Remarkable Feature

at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying.

Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheephead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.

With President Harris presiding, the city aldermanic board met last evening in regular session.

The meeting was businesslike, and several matters for the betterment of conditions in the city resulted.

The council authorized work to commence on the sidewalk from the Shanks Building, on Beach Street, to the corner of Beach Street and Orange Avenue. A heavy curb will be placed down, and the walk will be constructed of marl.
